

## MARICOPA COUNTY INVESTMENTS EXCEED PROJECTION

As projected the Maricopa County Treasurer's Office met and even exceeded \$60 Million net investment income for FY2018. The actual figure is \$64,399,364.04.

Treasurer Royce T. Flora, in announcing the figures, said, "We delivered as projected. Our office is doing an excellent job of managing the taxpayers' money resulting in nearly a 300% increase over last year." He added, "This \$64 Million is more than the total of the previous three years (FYs 2015, 2016 and 2017) combined. It happened because of two things: the strong national economy under the direction of the Trump Administration and the wise stewardship of our portfolio manager Mark Thompson."
